

GREEN THE BLOCK!!

Join Raising Expectations Inc. (R.E.) ~ A Youth Arts Education Organization ~ in a Community-Service Learning Arts Project for the 2009 INTERNATIONAL DAY OF ACTION TO STOP GLOBAL WARMING!

For 3 Saturdays in October, youth (ages 12-18) will meet at neighborhood libraries to learn from environmental educators and professional mosaic/sculpture artists about various ways to help keep DC communities clean and green.

Youth Ward representatives will take action by going out in their communities and collecting recyclable materials for the creation of 8 large mosaic/sculpture figures for public display in their Ward.

PRIZES WILL BE AWARDED TO THE BEST DESIGNS!

The mosaic sculpture figures will remind the community about the harmful effects of global warming and ways to reduce waste by recycling, conserving energy, and reusing materials for creative beautification projects.

Mark Your Calendar for October 24th when Youth will celebrate the completion of their designs for the Citywide Community Showcase and present their Community Action Plans (CAP) to stop global warming!

**DON'T MISS OUT ON THIS GREAT OPPORTUNITY TO BE A YOUTH LEADER!
JOIN A GREEN THE BLOCK TEAM IN YOUR DC WARD TODAY!**
